A GOOD PLAN.—THE MOST PROFITABLE WAY for dealing in stocks is by combining many orders and co-operating them as a whole, dividing profits pro rata among the shareholders, according to the market. Each customer thus secures all the advantages of immense capital and experienced skill, and can use any amount from $10 to $10,000 or more, with equal proportionate success. THE MILITARY STRENGTH OF EUROPEAN ARMIES.

The recent newspaper war between Germany and Russia having given rise to many speculations concerning the offensive and defensive power of several European States, some particulars respecting various armies, which have been furnished to us on good authority may be read with interest at this moment. To begin with Germany, the reorgnization of that army was fully carried out in 1866, since which time the annual recruiting has produced 1,300,000 men. After making due deductions for dead, sick, etc., the strength of the German army may now be fairly put at 1,250,000 men of the line, and the Reserves and the First Landwehr, all of whom are thoroughly drilled, and ready to enter the field at any moment. These men are of various ages, from twenty to thirty-two years. Besides these, the German Government can call out the Second Landwehr and the Landsturm, which include all the drilled soldiers from 32 to 50 years of age These would, after making due deductions number 1,300,000 men. All these 2,550,000 soldiers can be marched out in twenty-four hours after being called, as all the Quartermaster's arrangements are made in time of peace to enable this to be done. From this total must be deducted 200,000 for the fortresses, 150,000 for the coasts and against Denmark and 100,000 for depots; so that 2,100,000 men are available for real warfare, the last of whom would only require a fortnight at the most to be on the frontiers. The border fortifications on the French side are completely finished and are fully armed. They are furnished with large stores of provisions, and communicate with the interior of the country by means of good railways. France has, of course, good fortresses on the German frontier, and these are strengthened by smaller barricading forts, but, in addition to the fact that they will not be completed and in thorough working order before 1881, Germany has the advantage of a convex frontier, which would facilitate concentric attacks, such as are regarded by military authorities as the most successful. The strength of the French army is, on paper, 3,600,000 men, but Sir Garnet Wolseley, as well as other authorities, calculate it as only about 1,800,000, among whom are more than 600,000 undrilled men. Besides this, the state of the territorial army and the Garde Mobile is so doubtful that France is considered to have really for the beginning of a war not more than 1,000,000, of whom 400,000 must be deducted for garrisons etc., leaving 600,000 really available for action. Russia's force, although given on paper at 1,800,000 men, cannot, as was explained at the beginning of the recent dispute, exceed 400,000 men on the German frontier.

MR. GLADSTONE "INTERVIEWED."

Mr. GLADSTONE has been "interviewed," not by the ubiquitous Yankee reporter; but by a French journalist, who communicates the fruits of his inquiries to a Parisian newspaper. To this gentleman Mr. GLADSTONE said he thought that Lords HARTINGTON and GRANVILLE would be capable of guiding the nation in case of a Liberal victory next year. He would himself only assume office at the urgent request of the nation. Mr. Gladstone deprecated contention with Russia about Afghanistan, and said he believed there would not be any. India had absolutely nothing to fear from Russia, which has as much as she can do to hold her conquests in Turkistan. The Austro-German alliance, he said, was doubtless intended as a check to Russia, but the importance of such an alliance should not be exaggerated, as BISMARCK would abandon it as readily as he had abandoned Parliamentary parties which had served his purpose. GLADSTONE thought France and England had made a mistake in permitting Turkey to resume her privileges in Egypt by the deposition of the Khedive; that it was a mistake to exclude other European powers from sharing in Egyptian control. England's road to India must be retained by keeping up her maritime supremacy. GLADSTONE said his recent visit to Italy satisfied him that the Italia Irridenta question would not prove a source of danger to the peace of Italy. He believed that the next election in England would return a Liberal majority. He pointed out Lord DERBY's course as an important sign of the times. He expressed a flattering opinion of the present position and future prospects of France, and did not believe such episodes as the election of HUMBERT were of any importance. The *Telegraph*, of Paris, also reports an interview with GLADSTONE, who is represented as saying that the present French Constitution was likewise excellent for that country, and that since the civil war the American Government had given repeated proof of wisdom. English thinkers, he said, had watched with sympathetic curiosity the spectacle of a great nation under a purely elective government.

PER STEAMER ALASKA.—Just received at J. York's, Fort street, direct from England and Canada, Fall goods, comprising Ladies' Cloth Jackets and Ulsters, Maids' and Ladies' Costumes, Black and Colored Skirts, Wool Shawls, Plain and Fancy Dress Goods, Hats, Bonnets, Flowers, Feathers, Lace Collars and Scarfs, Ulster Cloths, Tweeds for Boys' Clothing and a large assortment of Hosiery, Haberdashery and Staple Goods. *

CANADIAN TARIFF.—Copies of the Canadian Tariff for sale at *The Colonist* Stationery Store. Price 12½ cents. *

The Reason Why.

My reason for buying Cooking and other Stoves and Parlor Grates at the Albion Iron Works is because I can purchase them there at prices much less than they can be imported for. The quality of the goods is equal, if not superior, to the imported article, and by buying them I get my money back, if not directly I do so indirectly, because the money I pay for an Albion Stove is kept in the country. Do not let unprincipled dealers sell you the imported article when you can help to save the country by buying Stoves, &c., at the Albion Iron Works, Store street, or of any respectable dealer. Examine for yourself and take no other. *

CARD TO THE PUBLIC.

FAMILIES ARE IN THE HABIT OF GIVING orders to Butcher Boys when taking meat to their houses to get them 25 or 50 cents' worth, or whatever amount it may be, of Heywood's Sausages, because they want to get a first-class article; but in place of sending *my* sausages as ordered, the butcher sends the kind he manufactures, which are known as Butchers' Sausages, and palms them off as mine for the sole purpose of injuring my business and profiting himself by supplying an inferior article. To-day two parties—whose names I shall not mention—brought to my shop sausages represented to have come from me that contain chunks of gristle and beef as large as marbles. My Sausages are chopped by steam, cut very fine and made of PURE PORK. Look out for imposition. Genuine Pinafores have no beef in them.

County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, Oct. 31st.

W. F. Tolmie, judgment creditor, vs. Fred'k. Reynolds, judgment debtor; Mrs. Isabella Simpson, garnishee. His Honor gave judgment in this case as follows: On the 18th of July, 1879, an order of the Court was made that all debts owing or accruing from the garnishee to the judgment debtor, should be attached to answer a judgment, recovered by the judgment creditor against the judgment debtor for $84 and costs; and it was further ordered that, the garnishee attend to show cause why she should not pay the judgment creditor the amount due by her to the judgment debtor, or so much as would satisfy the judgment debt. Subsequent proceedings showed that the debt in question had been assigned to a third party, but no notice of the assignment had been given to the garnishee. It appears, therefore, that the judgment creditor had grounds for taking proceedings, and I shall not interfere with the order of attachment which may be available when all equitable claims of the assignee shall be satisfied. In giving this decision, I have been guided by the ruling in the case of Hirst and others vs. Coates, Fountain and others. (Law Journal, vol. 34, p. 315.)

Mr. Pollard for the judgment creditor; Messrs. Drake & Jackson for the assignee.

A., $24,829.86; Garesché, Green & Co., $26,231. Total, $80,805.46. The shipment is the largest made since August last, when $115,000 was shipped.

FOR SAN FRANCISCO.—The steamship China sailed from Esquimalt for San Francisco at noon yesterday, having on board some 60 passengers, a large quantity of freight, $80,000 in treasure and the direct mails and express.

AQUATIC.—Weather permitting the sculling match between Cotsford and Seeley will take place at half-past 12 o'clock to-day; but should the wind prove too strong the start will be postponed until about half-past 4 o'clock.

THE CHARADES.—The word in "High Life" was "Mantelpiece;" and the word in "Bluebeard" was "Kind-red."

The Conviction of Sir Francis Hincks.

A more melancholy spectacle than that of a man borne down with the weight of years—who for more than half a century has filled positions of trust in Canada, who has been leader of a Government, who was honored with knighthood by his sovereign, and who has served the Imperial Government efficiently and well—arraigned in a criminal court at Montreal to take his trial for making a false return of a banking account, could not well be imagined. The specific grounds upon which Sir Francis Hincks was tried are these: The return of the condition of the Consolidated Bank, of which Sir Francis Hincks was President, forwarded to the Government on the 31st of January last, was as follows: "Deposits payable on demand, $2,180,373.61; deposits payable after notice on a fixed day, $2,013,098.02; due to other banks in Canada $——. [The prosecution contend that the amount should have been specified, and that the omission is a criminal omission.] Specie, $311,460.85; Dominion notes, $267,733.50; notes of and cheques on other banks, $263,838.99; notes and bills discounted, $7,250,149.45; other assets, not included under any of the foregoing heads in the said return, $——." The prosecution held that the amount should have been stated and the verdict has sustained the prosecution. The remaining directors, who were indicted with Sir Francis, will probably plead guilty. The evidence, so far as it has reached us, discloses lamentable negligence, but nothing criminal, and on this ground it is thought the sentences will not be severe.

NANAIMO ITEMS.—The *Free Press* says: For several weeks past the South Wellington Coal company have been sinking a bore on their property between the two bridges, that cross the Millstream, and near the residence of Mr. R. Wingate, the manager of the colliery. On Saturday last their persistent labors were fully crowned with success, for at a depth of 356 feet from the surface the boring rods struck the coal. For eleven feet the bore went through good hard coal, and showed a clearly defined seam of 11 feet of coal, similar to that now being mined at the shaft. The roof to the coal is pronounced a much safer one than at the present mine. This discovery proves a large area of the South Wellington property, and Mr. Chandler is to be congratulated on the success that as so rewarded his enterprise and perseverance. The bore is an ordinary hand bore, and was conducted under the surpervision of Mr. A. Dick..... There is not the slightest truth in the reports current for the past few days that Enos McKay Sabiston has been found—according to one report alive, and according to another dead..... Acting on the recommendation of the last Grand Jury and the actual necessity of having better hospital accommodation than can be afforded by the present building, a committe is laudably endeavoring to procure the funds necessary for the erection of a suitable hospital buildingon the new site so generously donated by the Directors of the Vancouver Coal Company. .....A Court of Revision under the Provincial Assessments Acts was held by Capt. Spaulding on Saturday morning when the official assessments were in many cases reduced and in several instances rescinded altogether.

MARINE.—The steamer Beaver arrived at Nanaimo on Thursday last from Comox with a boom of logs for Carpenter's mill and left shortly afterwards with the barks Montana and California, the former laden with 1030 tons of South Wellington coal and the latter with 1400 tons of Dunsmuir & Diggle's coal, both for San Francisco. They passed down the Straits early yesterday morning.....The steamer Beaver then returned to Comox to tow down a boom of logs for Sayward's mill.....The steamer Alexander will leave Burrard Inlet this evening, having in tow the ship Magna Charta laden with spars from Hastings mill and bound for Falmouth, England, for orders.....Freights at Portland are now £3 15s. to Cork for iron vessels.....The steamer Otter returned to port yesterday morning from Cape Flattery, having towed to sea the bark Princess Royal bound for England with a cargo of salmon and wool.....Three sixteenths of the ship Oregon, recently at this port, have been sold for $12,000..... The fastest long voyage on record was made by the British steamer Durban, with telegrams from Zululand to England. She left Table Bay a little before 8 p.m., and averaged 298 miles a day to Madira. The entire distance, about 6,000 miles, was run at an average of 13.1 knots. Faster speed has been made across the Atlantic, but this is the best for so long a distance.

FROM THE EAST. COAST.—The steamer Cariboo-Fly arrived here at half-past 4 o'clock yesterday afternoon from Comox, Nanaimo and settlements on the east coast with the mails and following passengers: Mrs. Neufelder, Mrs. Smith, Mrs. Keir, Mrs. Styles, Mrs. Alexander, Mrs. Staff, Mrs. Griffith, Miss Stirton, Miss M. Wake, Miss Myers, Messrs. J. G. Robinson, J. Quagliotti, A. Sutherland, J. Bedbary, J. Charley, G. F. Wake, T. Coaty, Neilson and H. Wright.

ON THE ROCKS.—The schooner Onward, Capt. McKay, bound for this port from Nanaimo with coal struck on the rocks in False Narrows on Thursday last and a portion of her cargo had to be thrown overboard to lighten her. It was thought she would get off without sustaining any material damage.

MAINLAND BEEF.—The band of cattle brought down from the Mainland by Messrs. Van Volkenburgh has been purchased by Messrs Goodacre & Dooley and Mr. J. Parker. The animals will be stall fed for the Christmas market.

THE steamship California, bound to Fort Wrangel and Sitka, crossed Columbia river bar yesterday morning and will arrive here to-morrow morning. She will sail hence for the north on Monday evening.

FOOT BALL.—A scratch match between teams selected from the Victoria Foot Ball Club will take place at Beacon Hill this afternoon, play commencing at 3 and terminating at 4 o'clock.

THE British Columbia Benovolent Society's ball will be held at Pavilion Skating Rink on the 13th inst., instead of at the City Hall, as originally intended.

SPIRITUALISM.—Dr. York, the celebrated spiritualist, is at Portland and will deliver a series of lectures in this city, commencing on the 20th inst.

FOR THE NORTH.—The steamer Princess Louise will leave for Fort Wrangel via Nanaimo at daybreak this morning.

The Defeat of the Joly Government.

The defeat of the Quebec Government by a majority of six must have taken their friends by surprise. The desertion of Mr. Chauveau and his following after the adjournment probably hastened the end. The Lieut.-Governor will scarcely grant a dissolution—the House being about the same age as that of this Province—and if a coalition government is formed it will be a strong one.

"GLASGOW MARKET."—Messrs. Holmes & Dudgeon, the well known butchers, are the proprietors of the Glasgow Market, Fort street, where they have constantly on hand an excellent supply of every description of meat. Families, hotels, restaurants and shipping will be supplied at the shortest notice at the lowest possible prices. The display of Mainland beef now made at the market is a credit alike to the Province and Messrs. Holmes & Dudgeon.

The Volunteer Fire Department.

EDITOR COLONIST:—For the information of the members of the Victoria Fire Department and the Ratepayers I consider it advisable to state some particulars respecting the present organization, and also the causes which led to my introducing certain resolutions at meetings of the City Council.

At the first meeting of the City Council I was appointed to act as one of the Firewardens, and I began to look into the present organization. When the fires occurred at Mr. Finlayson's barn, on Langley street and at Muirhead & Mann's sash factory, I was at once convinced that the work of extinguishing would be much better done by a smaller body of men under carefully selected and responsible foremen; that there would be less confusion and less destruction of property; that the police should be employed to keep back the crowd and to see that the firemen were not interrupted or their attention diverted from their work.

The next step was to ascertain the cost of the present organization, and when I found that the amount of public money paid over to the Volunteer Fire Department for

1875 was	$6,180
1876 "	6,078
1877 "	7,040
1878 "	5,432
Making a total of	$25,639

paid in four years; that the amount for 1879 will be $9,000, and that the amount is annually increasing; that the Fire Department rendered no detailed accounts of how these sums were expended; that they are anually distributing large sums of money amongst themselves in salaries to officers elected by a body of 182 members—103 of whom do not contribute to the City revenue,—I thought that with all consideration and gratitude to those members of the department who have hitherto given their services gratuitously, that a better system should be introduced, and at my instance the following resolution was unanimously adopted at a meeting of the Council held 14th May, 1879:

RESOLUTION.

"That the Mayor and Council request the Board of Delegates of the Victoria Fire Department on or before the 30th of June, if practicable, to hand over to them the engines, hose carts, hose, buildings and all apparatus belonging to the city, and now under the charge of the Victoria Fire Department; and also to furnish as soon as practicable an inventory of all plant, buildings, &c., &c., and all property at present under the charge of the Victoria Fire Department.

"That the Clerk be instructed to send a copy of this Resolution to the President of the Victoria Fire Department, and also to ask the members of the Board of Delegates to co-operate with the City Council in devising a scheme to put a Fire Department on a proper and efficient basis."

To the request contained therein the Fire Department returned a denial. After the question of a change of system had been ventilated at two meetings with some of the members of the Board of Delegates it was considered unadvisable to attempt to make so sudden a change from a volunteer to a paid department, and it was proposed to ask the fire companies if they would consent to the election of the paid officers being left to the Ratepayers. Upon this question being asked the department returned an unqualified "*No.*"

I am still of opinion that with the sum at the disposal of the City Council an efficient paid fire department could be maintained. My opinion is based on figures made upon estimates furnished by experienced firemen. Still, admitting that it is not desirable to make so sudden a change, the question for the Ratepayers is this: Is the present condition of the organization for the protection of the City against fire such as they wish to see continued? and looking to the above statement of facts do the Ratepayers wish their representatives to take any further steps to effect a change?

Yours, faithfully,
C. W. R. THOMSON.

VICTORIA, Oct. 30.

EDITOR COLONIST:—Senator Macdonald seems happy when he can get an ill-natured fling at the writer; in fact, since my friend had the honor of representing this district of the Province in the Senate of the Dominion it would appear that the dignity he carries is too much for his head, and he would wish to be thought one of the few great men of Canada.

If he would know my opinion of him it is this: That were he a candidate for the position of pound-keeper for this city he would fail in his election.

With reference to the subject of his letters contained in the columns of *The Colonist* of the 29th inst. I regret very much if I have said anything which the Senator could construe as incorrect; but the following extracts will prove whether I was justified or not in my previous statement of facts. For here are Senator Macdonald's own words quoted from the journals of the House of Commons.

[*Appendix No. 4, A. 1879.*]

ON THE CHINESE QUESTION.

Committee Room, April 24, 1879.

By Mr. Brooks—You do not think that they (the Chinese) are more immoral than the laboring classes? A.—No! They are not more immoral than the people in London, England, as far as my evidence goes.

By the Chairman—On moral grounds you would not be in favor of prohibiting the immigration of these people into this country? A.—I do not think that I would. I do not think that they are worse than the laboring classes of other nationalities in other countries.

By Mr. Trow—Are their females more debauched than those of the rest of the community? Are they more debauched than other classes as a rule? A.—I think *white women* are just as bad as Chinese women.

Is it creditable to his manhood that he should utter such a foul aspersion against white women without any qualification?

The journals of the House of Commons by the kind permission of Mr. T. J. Burnes may be perused at his hotel, Yates street.

Yours truly, A. BUNSTER.

Lawson vs. Labouchere.

LONDON, Oct. 19.—The libel case of Lawson vs. Labouchere came up in the Guildhall Police Court to-day. The cause of quarrel is alleged to have been the publication of the following by Labouchere:—"That the late Lionel Lawson started the *Daily Telegraph* with £500 of his own, £500 borrowed and £500 from a trust fund," implying that the deceased had misappropriated the money intrusted to him. Mr. Wyman, the printer of *Truth*, was arraigned also in Court. Labouchere was not represented by counsel. Mr. Poland, Q. C., and the Attorney-General appeared for the editor of the *Telegraph*. A large number of legal luminaries were present. The first witness was Mr. Lawson, who testified as to the publication of the libel and then narrated the details of the assualt substantially as per his heretofore published statements. The question incidentally arose among the lawyers as to whether a dead man could be libelled, and Lawson remarked that the only way he could revenge himself on Labouchere for the insult on his dead uncle published in *Truth* was by inflicting a thrashing. Labouchere then cross-examined Lawson at length, but failed to break down his testimony. Great bitterness was manifested on both sides. Further hearing of the case was finally adjourned until to-morrow week.

The Warbling Pinafore; or the Musical Sausage.

Historical Sketch—Its effects on the Mental, Moral, Physical and Harmonical Tendencies of a People.

BY J. HEYWOOD.

[Copyright secured in accordance with the Act of the Canadian Parliament, 1879.]

The Warbling Pinafore or Musical Sausage was the original conception of E. Gilbert and Arthur Sullivan, whose ideas have been adopted, improved, embellished and brilliantly illuminated by the author of this little sketch. It was composed expressly for H. M. S. Pinafore and is now extensively used in the British army and navy. No ship goes to sea or army takes the field without a supply. The secret of the manufacture being patented the inventor imparts the information that into each sausage is introduced a NIGHTINGALE'S TONGUE. These delicate morsels are obtained only with great difficulty and after the expenditure of large sums of money; but the sausage is still sold cheap. Adelina Patti, the reigning Queen of Song, will never undertake to sing the part of Rosina in "Il Barbiere" without having first fortified herself with a delicate repast of Musical Sausages, then no words can convey an idea of the exquisite purity of her voice; always mellow, always equable, which vibrates without effort and each note of which expands itself like the bud of the rose. The mellow sweetness of her voice, so rich and pure that every note is like a pearl, honey sweet and silver toned; her voice rings out full and clear like a siver bell; the clearness of her notes, the precision of her intonation, the fertility of her invention and the facility of her execution are displayed in brilliant flights and lavish *feoriture;* the ease with which she sings is perfectly captivating and the neatness and elogance of her enunciation, combined with the sweetness and brilliancy of voice and perfect intonation, render her execution faultless. Its effects are ravishing. She is a captivating Rosina, charming, exquisitely delightful, and can warble like a thousand nightingales. Her singing of the lesson song at the pianoforte in particular is given with extraordinary power and effect. Her Rosina has never been equalled since the sunny days of the brilliant Malibran, the bewitching Sontag and the glorious Alboni. Her execution of the pretty mockingbird is one of the most perfect specimens of vocal power ever heard. The warbling Pinafore or Musical Sausage may be eaten with benefit and pleasure at any hour of the day or night, the only direction being to *brown nicely before serving*, and when eaten it will bring joy, peace and happiness to the family circle and cause all to raise their voices in ecstatic euphony. It is like a thing of beauty—a joy forever, and the oil of gladness to bruised hearts. A meal of these Sausages will cause crying children to smile through their tears and keep them singing throughout the day. When evening closes round the household the whole family will warble themselves to sleep, their last song being "Oh! what Pain it is to Part with Thee"—meaning, of course, the Pinafore Sausage.

Sydney Exhibition, 1879, and Melbourne Exhibition, 1880.

We have before us a copy of the Australian and New Zealand *Gazette*, describing the exhibits at this great colonial display from which we clip the following:—

PIANOS.

The display of pianos at the forthcoming Exhibition will naturally be striking and varied. The culture of music, both in a public and a domestic sense, has of late years made great advance in the Australian colonies, and we are glad to see that our leading manufacturers here are actively taking advantage of the obvious opening presented for bringing good instruments under the notice of an appreciative public. Foremost among British exhibitors in this class will be Messrs. Chappell & Co., who are already and have so long been famous for their pianofortes, harmoniums, and indeed for musical instruments and appliances in general. It has been aptly said that the rapid progress made by English colonists in the art and science of music has taxed to the utmost the efforts of Europeans to supply the increasing demands for musical instruments of better quality and greater strength than those hitherto imported. It is with the object of supplying these demands that Messrs. Chappell & Co. have manufactured expressly for the colonies the iron-framed grand and upright pianofortes now exhibited. These pianofortes possess the sweetness of tone which characterises good English-made instruments, elasticity of touch, great power of endurance against all changes of temperature, and fine finish of cabinet work. The high quality of their beautiful instruments has been widely approved by the leading musical authorities of Great Britain and the Continent, nor is that anyway strange, seeing that the mechanism is made with the greatest care, and is of the finest finish. The touch is easy and sensitive to the fingers. The tone is rich and of great sustaining power. The bass is strung transversely, giving greater length to the strings, which are carried across the centre of the sounding board (over the steel strings), and are radiated over a large surface, thus greatly increasing the freedom and power of tone. The framework or bracings, which are subjected to the strain of the strings, being made in one solid casting of iron, ensures the instrument remaining in tune through all changes of temperature or climate. The exhibits of Messrs. Chappell & Co. are sure to excite admiration from all musicians who give them a trial.

Messrs. A. B. GRAY & Co. are the agents in British Columbia for this firm's instruments.

GREAT STORM IN NOVA SCOTIA.

THE BRITISH OCCUPATION OF AFGHANISTAN TO BE PERMANENT.

The Country Virtually Annexed.

CANADA.

HALIFAX, Oct. 29.—A rainstorm and heavy south-east gale commenced last night and continued till a late hour this morning. It was very severe, and fences and trees in this city suffered considerably. Telegrams from various points in the Province report the storm severe, rain very heavy and tides high. There is every appearance of another storm to-night.

HALIFAX, Oct. 30.—The storm yesterday was felt severely in the eastern portion of Nova Scotia. At Port Mulgrave a hurricane raged all morning doing immense damage to buildings and wharves. Four schooners are ashore at Hastings and one at Cape Jack light. Seven buildings were blown down. Such a severe storm was never experienced before in that section. A telegram from Port Hastings says the most severe gale ever experienced in that locality raged here from early morning till noon when it reached its height. A number of buildings were blown down. Roofs of others were blown to pieces and came away with the wind; scarcely a building in the place has escaped damage. It is reported that a house was blown down at Cape Jack, killing an elderly woman. Reports from everywhere in the Province tell the same story of disaster.

PACIFIC COAST.

SAN FRANCISCO, Oct. 29.—W. H. Henderson, commercial editor of the *Chronicle*, committed suicide in the Arion Saloon at the corner of Kearney and Sutter streets, at about one o'clock this afternoon by shooting himself in the head. He wrote a note to a friend attributing his act to domestic and pecuniary troubles. He had lost considerable money in stocks lately. He died early this evening.

SCOTLAND.

LONDON, Oct. 29.—John Blackwood, senior partner of the firm of Blackwood & Sons, of *Blackwood's Magazine*, of Edinburg, is dead.

ENGLAND.

LONDON, Oct. 30.—The price of tin in Cornwall yesterday fell £3 per ton.

A supplement to the London *Gazette* publishes a proclamation summoning Parliament for the 19th December. The proclamation is in the usual form, but does not contain the words "for dispatch of business," which would be necessary if a session was contemplated before Christmas.

AFGHANISTAN.

A dispatch from Cabul says the population of Cabul is quiet, but sullen. There can be no doubt that beneath is a deep dread of British dominion. The Cabulees are kept down simply by fear and would rise if they saw a chance of success.

SIMLA, Oct. 30.—By order of the Viceroy of India Sir Frederick Roberts has issued a proclamation stating that in consequence of the abdication or the Ameer and the outrage at the British residency the British Government has been compelled to occupy Cabul and other portions of Afghanistan. Afghan authorities and chiefs and Sirdars are instructed by proclamation to continue to maintain order in the districts under their control and are invited to hold a joint consultation with General Roberts. The people of the occupied districts will be treated with justice and benevolence and their religion and customs respected. Loyalty and good service to the British crown will be suitably rewarded, but all offenders against English administration will be punished. Arrangements for the permanent administration of the country will be made after the above method of consultation has been held.

UNITED STATES.

PARKER, Pa., Oct. 30—A destructive fire occurred this morning, originating at half-past three in a small office and was evidently the work of an incendiary. The fire spread so rapidly on account of the high winds and the scarcity of water that but little could be done to arrest the flames until that portion lying between the Mansion House and Wilson & Manifold's drygoods house and from the river to the bluff was totally destroyed. About one hundred buildings comprising the principal business portion of the town were burned, involving a loss of probably $200,000, upon which there is but little insurance, as policies were generally cancelled.

Afternoon Dispatch.

THE GREAT STORM IN NOVA SCOTIA.

Extensive Damage to Shipping.

HALIFAX, Oct. 31.—Later news shows that the storm which visited the eastern section of the Province on Wednesday, was more severe and destructive than at first supposed. At Guysboro, bridges on the upper and lower Salmon river were swept away, wharves damaged, houses and barns blown down, a number of schooners driven on shore and Hugh N. Fraser and Mrs. Havin killed by the falling of a roof and chimney. At Hawkesbury and Canso the damage done at sea and ashore was very great; buildings in both towns being leveled to the ground, while wrecks of vessels litter the beach. In addition to wrecks, thirty vessels are ashore in Canso Straits. At Crow Harbor and other places, damage was also severe.

SAN FRANCISCO., Oct. 31.—Recount which has been going on at the request of Stately, the defeated workingmen's candidate for superintendent of srteets, was dismissed to-day, when partly finished, the applicant failing to pay costs in accordance with law.

PHILADELPHIA, Oct. 30.—Isaac Jacobson a sailor, recently convicted of the murder of Charles D. Brooks, mate of the ship Sea King, on the 17th of August last was to-day sentenced to be hanged on the 4th of January next.

In the Whole History of Medicine No preparation has ever performed such marvelous cures, or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering and often saving life. The protection it affords by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. For sale by all dealers. 1dw

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

ANOTHER WONDERFUL CURE
—EFFECTED BY—
California Elastic Truss!

CALIFORNIA ELASTIC TRUSS CO., W. J. Herne Proprietor—Dear Sir: I feel that I owe it to you and to humanity to write the fact that I have been *SUBSTANTIALLY CURED* of a bad case of rupture of thirty years' standing, by one of your incomparable Trusses, which I purchased from you three months ago. I cannot describe the suffering, both physically and mentally, that I have undergone during that period; and now I feel like a new being. I have worn all kinds of Trusses, both Steel and Elastic, and never received any permanent relief until I tried yours. Its simplicity of construction, and facility with which it can be adjusted, and the ease and perfect freedom to the motions of the body with which it can be worn without causing any irritation, are its chief merits, and it is a perfect supporter. I have not had any sign of a return of the rupture since the first day I put it on and feel that I am *PERFECTLY CURED*. It is invaluable, and the fact should be known to the world. You can refer anyone to me on the subject of its merits I am truly yours, ALFRED J. BURKE,
